

Cancellation Policy

For Photography Solutions

YOURAVIATION

As a young start-up company, one of our primary concern is to follow a clear and transparent policy regarding photography solutions. A big part of such a policy is the cancellation of the shooting. As we work in an industry where different factors like weather, aircraft change, flight cancellations & delays or airspace restriction can happen, our company is very flexible when it comes to cancellation. The following scheme is supposed to give you information about the costs that we are going to invoice you in case of a cancellation. Please note that days are supposed to be calendar days. The date used for calculation is the first shooting day, according to the photography contract.

Full Cancellation:

21-30 Days before start:	10% of the shooting price*
15-20 Days before start:	15% of the shooting price*
10-14 Days before start:	20% of the shooting price*
5-9 Days before start:	50% of the shooting price*
3-4 Days before start:	75% of the shooting price*
less than 2 Days before start:	100% of the shooting price*

Postponement (any reason except weather):

20 Days or more before start:	5% of the shooting price*
15-19 Days before start:	8% of the shooting price*
10-14 Days before start:	10% of the shooting price*
5-9 Days before start:	14% of the shooting price*
3-4 Days before start:	18% of the shooting price*
less than 2 Days before start:	20% of the shooting price*

Postponement (due to weather):

Before start:	0% of the shooting price**
During production:	hours already worked**

* The shooting price is the first figure available on your offer or invoice. It is not including the post-production or further costs. In case of full cancelation or in case of postponement due to any reason except weather, you will additionally be charged for transport and hospitality costs, if those can not be refunded anymore.

** In case of bad weather, you will not be charged for shooting costs if the decision falls before the start. In case of bad weather during the production, you will be charged for the time we produced (e.g. if 1 production day (10 hours) is 1000.-, and we worked 4 hours, we will charge you 400.-. The other 600.- will be charged on the second production day). The decision of cancellation due to bad weather will **always** be taken by YourAviation LLC, except if it affects the flight operations. We are not able to produce safely during rain. You will be charged 75% of the transport and hospitality costs in case of bad weather if those can't be refunded anymore.

This policy was updated on November 1st, 2019. It is valid for any movie production contract made after November 1st, 2019. You will be informed in case of changes to this policy. YourAviation LLC keeps the right to update this policy at any time.
